

Becoming a Love & Logic Parent® Training Course

About the Course:

Get ready to laugh, learn, and take the exhaustion and frustration out of parenting. This unique program is designed to give you practical, easy-to-use skills that can be used immediately! Reduce your stress and have fun with kids again!

You'll learn answers to:

- “How do I get my children out of bed in time to catch the school bus?”
- “How can I stop them from bickering?”
- “How do I get my children to help with the chores without an argument?”
- “Is there a way to discipline my child in public without creating a scene?”
- “How can I get my teenage daughter to come home at the agreed-upon time?”
- “How do I get him to do his homework without arguments?”
- “How can I end hassles about curfew?”
- And many other day-to-day parenting challenges.

In this win-win approach to parenting, you'll learn how to raise children who are self-confident, motivated, and ready for the world. Your children will win because they'll learn to solve their own problems while gaining the confidence they need to meet life's challenges. And you'll win because you'll establish healthy control—without resorting to anger, nagging, or exhausting power struggles. Becoming a Love and Logic Parent Training Course puts the fun back into parenting!
