

Presents an Introduction to...

Becoming a Love and Logic Parent[®] Curriculum

Topics Include:

- The Two Rules of Love and Logic
- Delayed or "Anticipatory" Consequences
- Using Empathy and Love and Logic One-Liners to Neutralize Arguing
- How to get more information about Love and Logic

Attend this introductory to Love and Logic and you'll learn tips and techniques to:

- Get kids to take out the trash or do other chores around the house!
- Become a black-belt in the art of out-arguing even the most challenging kid!
- Raise responsible kids who feel great about themselves.

This parenting program is designed to give you practical skills
that can be used immediately!
